MR #1 Mold Release - A solvent based release system used when high temperature and abrasion resistance are important. This is a water thin liquid which adheres to mold surfaces and provides multiple releases with virtually no transfer. Sold in quarts, gallons or pails.

MR #2 Mold Release - Also known as PVA or Green Seal, this release agent is a water/alcohol solution which when sprayed forms a smooth glossy film that will not shrink or pull away from corners or curved surfaces. Sold in quarts, gallons or pails.

Mold Sealer #7 - A semi-permanent primer coating designed to seal areas of micro-porosity in epoxy, polyester or metal molds or tools. Sold in quarts, gallons or pails.

Mold Wax #8 - A mold releasing paste wax. This material can be used alone or with other release agents. Sold in 11oz cans.

MR #10 Mold Release - A semi-permanent, high gloss, multiple-cycle release coating designed for reinforced polyester resins using epoxy, polyester or metal molds. It also effectively releases epoxy, phenolic and other resin systems. Sold in quarts, gallons or pails.

Ease Release 200 - A versatile silicone based agent with excellent release characteristics. Suitable for use with urethanes, epoxy, rubber formulations and most other resins molded today. This release reproduces mold detail well and parts are easily cleaned with a solvent. Sold in aerosol cans.

Chemlease #88 Mold Release - A non-silicone, dry lubricant based on a fluorocarbon telomere dispersion. This release agent works effectively with a wide variety of molding resins and provides a clean, dry, non-oily release film with excellent slip characteristics. Sold in aerosol cans.

Color Dispersions - Choice of black, blue, red, white and yellow. Compatible with polyester, epoxy and polyurethane resins. Sold in 4oz jars, or by the pound.

Fast Dry Sanding Sealer - A rapid drying seal for plaster and wood molds. Also used as a sealer for many of our TCC Tooling Planks. Sold in gallons and pails.

Dri Gas XTEND-IT - Removes oxygen from containers to avoid moisture contamination and extend shelf life. Sold in aerosol cans.

Industrial Metal Primer Kit - Primer used for bonding urethane to metal. Sold in a pint kit.
